

Dear Parent/Guardian,

While we are away from school, **your child will have access to Lexia® Core5® Reading**, a fun computer-based program that has helped millions of students.

The activities in Core5 support and build on our classroom curriculum and focus on developing reading skills in six areas: phonological awareness, phonics, structural analysis, fluency, vocabulary, and comprehension.

Here's how Lexia Core5 Reading works:

- Your child begins Core5 at a starting point that fits his or her needs and works in online activities throughout the week.
- Online activities include direct instruction and feedback as your child learns new skills.
- Progress and performance in the program is reported so teachers can provide help when needed.
- Based on level, students are assigned a number of minutes to work each week. Feel free to adjust to your family's needs.

Lexia Core5 Reading can be used at home for extra practice. Getting started is easy!
